Zoom is supported only on Fire TV Cube (2nd generation) and Amazon Omni Fire TV series televisions. You will also need a USB webcam. Features: Make and receive zoom calls on Fire TV How to Install & Use Zoom on
FireStick 96. Wolf Launcher (Free) Wolf Launcher for FireStick users, the native Fire TV does not provide the most eye-catching and elegant design. While the Fire OS is based on a custom version of the Android OS, it does not come close to Android in terms of interface customization. As a result, FireStick
 Launcher declutters the home screen by removing the sponsored and suggested Amazon apps and banners that are part of the default OS. Wolf Launcher is a third-party app which is not available in the official Amazon apps and banners that are part of the default OS. Wolf Launcher or
FireStick 97. Aurora Store (Free) Firestick is Android-based, but it lacks the official Google Play Store. Aurora Store is an open-source utility app that provides an alternative to the Google Play Store. Additionally, Aurora Store
mimics other Play Store features, such as the ability to manage installed apps from the store. For example, you can update existing apps with Aurora Store has a well-designed interface. You don't need a Google Play account to use the app on your FireStick. Features: Tons of Android apps not present on the Amazon Store User-friendly
interface How to Install Aurora Store on FireStick 98. Aptoide app store is usually called the Google Play Store alternative for Amazon. Aptoide has tons of streaming and utility apps you won't find on the Amazon
Store. Features: A wide range of third-party apps for FireStick Easy to install and Use AppLinked Store Codes. There are dozens
of AppLinked codes with hundreds of apps for FireStick and Android devices. AppLinked is an alternative to FileLinked, which is no longer available. Features: Quickly install third-party apps on FireStick with codes Lots of codes available. Features: Quickly install third-party apps on FireStick and Android devices. AppLinked is a lot like AppLinked and is also one of
the alternatives to FileLinked. Like AppLinked, you need Unlinked store codes to browse and install apps on FireStick and Android. There are plenty of third-party apps Easy to use How to Install and Use Unlinked on FireStick 101. Task Killer (Free) Task Killer is a lightweight utility
app that helps optimize your device's speed and performance. Task Killer frees up this space by killing background apps and tasks, providing an instant speed boost to your device app will show you the active apps running in the background
and the amount of available memory you currently have. It has an "Ignore" feature that lets you add some apps to an allowlist, preventing them from being auto-killed. Features: Speeds up FireStick by removing background apps Easily delete app cache for better app performance How to Install Task Killer on FireStick 102. Blokada (Free) Blokada is
a utility/security app that blocks ads and popups on your FireStick. It is also known to prevent your device from malware and trackers. Blokada works with several third-party apps and minimizes ad-annoyance. This app is completely free and legal. In addition to FireStick, it also works on Android TV and Android Smartphones. Features: Open source
and free utility Minimizes ads for a better streaming experience Prevents FireStick from malware and other malicious software How to Install & Use Blokada on FireStick offer movie streaming. However, if I were to pick from them, I would either go for
Cinema APK or Nova TV. These FireStick apps have an extensive library of movies and fetch many quality links. In addition, both support Real Debrid, which ensures you have premium streaming links. What is the best Live TV App for FireStick? On the Live TV front, Live Net TV, Ola TV, and HD Streamz are doing a fine job. These best FireStick apps
feature tons of live TV channels for movies, shows, sports, kids, and more. These are free FireStick apps. What is the best app for a Jailbroken FireStick? It depends upon the type of content you want to watch. If you like to stream movies and shows, you would like Cinema HD and Nova TV. On the other hand, if it is the live TV you want, we
recommend Live Net TV, Ola TV, and HD Streamz. However, the one app that should be part of your jailbroken FireStick is ExpressVPN. This app will secure your online streaming by hiding your online streaming by hiding your online streaming by hiding your online streaming hid in the common stream in the 
download movies and shows onto your device. However, I do not recommend it because FireStick has a low storage capacity. Movies will occupy a lot of space in your storage and cause many problems, including buffering, overheating, and more. Discontinued FireStick Apps Here is the list of the apps that do not work anymore. I am still keeping
them here so that you know which ones don't work, and if you run into any of them anywhere else, you do not end up wasting time trying to install them. CineHub is an excellent app for streaming movies and TV shows. This app is suitable for lovers of classics, popular titles, and the latest releases alike. This streaming app's immense
database of movies and series is regularly updated with the newest titles. New content is uploaded virtually every day on this app. At the same time, it has an impressive collection of Westerns, cult classics, and other obscure titles. On CineHub, you can stream movies and TV shows in high quality. Even though the videos are in HD or higher, there is
very little buffering, thanks to CineHub's quality servers. There are multiple links for any content that you are interested in watching. That way, if a streaming your movie or show. It also comes with the option to watch videos offline. While it comes with a built-in media
player that offers support for several file formats, users can still use external players. CineHub is not a paid app. FireStick FileLinked (Free) The popular file-sharing app DroidAdmin has been rebranded, repackaged, and is now available
as FileLinked. Whether you want to share photos, videos, music, or APKs, FileLinked will do it all for you. This also makes FileLinked an incredibly useful side-loading apps on FireStick, FileLinked is making quick progress too. The app makes sideloading a
hassle-free process. All you need to do is obtain the file code from the uploader and enter it in FileLinked is all the handier for FireStick users since this device doesn't allow you to download the APK files directly from the browsers. I have noticed that
more and more developers these days are offering FileLinked on FireStick apps. Therefore, it only makes sense to have this app on FireStick. How to Install FileLinked on FireStick apps. Therefore, it only makes sense to have this app on FireStick.
TV. You can browse Typhoon TV has a remote-friendly interface and offers smooth navigation on FireStick. It also works great with the premium link generator Real Debrid. content you want to watch by several categories and filters. If you are looking for quality on-demand streaming, give Typhoon TV a try. How to Install Typhoon TV atry. How to Install Typhoon
because it offers a wide range of movie titles and allows one-click playback. It has a section for TV-Shows. However, it is still offline as I write this. Morphix TV is a small-sized app that works smoothly on FireStick as well as Android TV devices. It has a remote-friendly app allowing easy navigation on the big screen. Give it a try. How to Install
Morphix TV Morph TV (Free) Even though the very popular Morpheus TV and use the existing content library, it no longer gets any new updates. On the other hand, Morph TV has the support of an active team of
developers. The software upgrades are regular and the media collection is constantly refurnished with new movies and TV shows. Morph TV has an unsophisticated interface allowing you to get started without having to go through any learning curve. The app scrapes quality streams. However, I miss Real-Debrid support. I hope it is added soon in one
of the future software updates. How to Install Morph TV UnlockMyTV (Free) UnlockMyTV is a great option to watch your favorite movies and shows currently. The media library is strong and regularly updated with new content. You will find almost all the new movies and shows. What I really like about this app is its ability to scrape superior-quality
streaming links from a variety of sources. I was impressed to see several 1080p streams. And, there are barely any dead links. Almost everything works here. UnlockMyTV is gaining popularity as a Cinema HD clone. Both are strikingly similar in form and function. Both are performing superbly too. How to Install UnlockMyTV on FireStick Players
Klub IPTV (Paid) The Players Klub IPTV service comes at an affordable price of $8 per month. Given the fact that it has
a huge collection of channels and all streams at high-quality, I would say it is a pretty amazing deal. While Players Klub IPTV is primarily a live TV app, it also has a decent on-demand section with dozens of movies and TV shows for your streaming delight. Unlike a lot of free FireStick apps, Players Klub IPTV offers a more reliable and higher quality
video playback. The Players Klub IPTV has an Android app you can install on FireStick than the addon, which you can again use on FireStick through Kodi. However, the Android app seemingly works better on FireStick than the addon. Of course,
the addon makes Players Klub IPTV a multiplatform service. How to Install The Players Klub IPTV Locast (Free) Locast operates, you can gain access to a variety of local TV channels for free without needing an antenna or cable.
You could also use a VPN to set your location to a nearby metropolis. This streaming app requires that you create a free account on its website or you can download the FireStick app. Either way, you get online access to local broadcasts. As you
can imagine, Locast is not the ideal option if you want an IPTV app that lets you watch channels from anywhere. It doesn't have on-demand content either, instead of focusing entirely on live TV. The Locast app for FireStick has a simple and efficient user interface. There is a TV Guide that lists all the local channels in your area, as well as program
names and details for each channel. You can stream in high quality, and you will find the streams reliable. Locast depends on donations to operate, so expect a short ad about making a donation before you can watch a channel. Locast is a legal app that can be downloaded on the Amazon Appstore. AOS TV (Free) Want access to an immeasurable
library of your favorite movies, TV channels, and news? Then, the AOS TV app will win you over. Cartoons, IPTV, movies, music, and more: AOS TV covers a wide range of entertainment sources. The AOS TV app is packed with great features. With the filter option, AOS TV lets you find content by country, and the search option enables you to find
anything in a snap. All in all, AOS TV is one of the best free live TV and media streaming applications available right now. How to Install AOS TV on FireStick Mobdro (Free) If you like watching sports and at the same time don't want to spend a penny for that then Mobdro is the right Fire Stick app for you. Don't look for this app on the Amazon App
Store because it can only be downloaded from Mobdro's official website. If you are a Kodi user, you can install it on Kodi itself. Once you download this application and run it on your fire TV, you'll notice that Mobdro keeps on searching free video streaming around the globe and sends it directly to your device, making it a very useful tool in the said
regard. You can enjoy the free streaming service for as long as you want, but if you wish to remove unnecessary bulky ads then you have to purchase a premium account. With a premium subscription, you can not only enjoy ad-free entertainment but also capture and download the live streaming videos and store them for later viewing. How to Install
Mobdro on FireStick To Conclude The Amazon FireStick has enormous potential. It won't be long before we see people abandoning cable and dish and opting for internet streaming. When it comes to enjoying flexibility in what you want to watch, it makes perfect sense. If you are planning to buy an Amazon FireStick or already have one, the above
applications can be helpful. Eventually, you will get a taste of different entertainment and figure out which apps are your favorite. While some applications are free of cost, others will set you back by a few dollars if you'd like to enjoy premium features. The list above is a mix of both and will make your device a complete entertainment source. Related:
